

VISTA

Become an AmeriCorps VISTA for Community & Economic Development

Take advantage of an opportunity to serve your community and country while gaining valuable skills and connections. The U.S. Department of Commerce's Economic Development Administration (EDA) currently has a pilot program with the Corporation for National Community Service (CNCS) and the local Ark-Tex Council of Governments to provide economic development capacity building services to economically distressed, rural communities in Texas. The position will provide an opportunity to work closely with local communities, regional organizations and Federal agencies while receiving hands-on training in economic development.

This project will focus on the nine county areas of the Ark-Tex Council of Governments (ATCOG) through the Northeast Texas Economic Development District (NETEDD). NETEDD partners with the U.S. Economic Development Administration to provide region-wide strategic economic development planning. The VISTA will have the opportunity to focus on identified areas within the ATCOG region to build economic development capacity at a more in-depth level. The VISTA will work with their communities to identify economic development needs and resources to meet those needs in an effort to attract higher-paying jobs and other opportunities. The overall goal is to build capacity in rural, economically distressed communities to alleviate poverty, reduce unemployment, and provide a better quality of life.
